Specifically failed to comply with the following:

s. 90. (2) The licensee shall ensure that procedures are developed and implemented to ensure that,

(i) the temperature of the hot water serving all bathtubs and showers used by residents is maintained at a temperature of at least 40 degrees Celsius; O. Reg. 79/10, s. 90 (2).

1. The licensee failed to ensure that procedures are developed and implemented to ensure that the hot water temperature serving all bathtubs and showers used by residents is maintained at a temperature of at least 40 degrees Celsius.

Interview with Resident #3, #4 and identified staff identified the shower water temperature on two of the units as not warm enough for residents to have a comfortable shower.

On January 08, 2014 measurements of the water temperatures for showers on all units were conducted in the presence of the Environmental Service Supervisor. The water temperature was 36 degrees Celsius on one of the units and 37 degrees Celsius on another unit at the same floor. Interview with identified staff and Environmental Services Supervisor indicated on January 06, 2014 staff sent a request to maintenance department in regards to shower water not being warm enough on the unit. The issue in this request was not checked or resolved until January 08, 2014. [s. 90. (2) (i)]
