**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 126. Every licensee of a long-term care home shall ensure that drugs remain in the original labelled container or package provided by the pharmacy service provider or the Government of Ontario until administered to a resident or destroyed. O. Reg. 79/10, s. 126.**

---

**Findings/Faits saillants :**

1. The Licensee did not ensure that drugs remained in the original labelled container or package provided by the pharmacy service provider: [s. 126.]

A medication label provided by the Pharmacy Service Provider had been changed by a registered staff member. Additional registered staff members followed the directions on the changed label rather than the pharmacy issued label. This resulted in the resident receiving incorrect doses of medication.

The home Pharmacy Policy and Procedure manual states “nursing staff are not licensed to complete/attach and/or change labels on medication containers”. During the inspection, the home staff interviewed confirmed that all ordered medication is labelled by the Pharmacy Service Provider and staff should not administer medication with an altered label. The pharmacy should be contacted if clarification related to a medication is needed. [s. 126.]

***Additional Required Actions:***

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that drugs remain in the original labelled container or package provided by the pharmacy service provider or the Government of Ontario until administered to a resident or destroyed, to be implemented voluntarily.***
