**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 231. Resident records**

**Every licensee of a long-term care home shall ensure that,**

- (a) a written record is created and maintained for each resident of the home; and**
- (b) the resident's written record is kept up to date at all times. O. Reg. 79/10, s. 231.**

**Findings/Faits saillants :**

1. The licensee has failed to ensure that the resident's written record was kept up to date at all times.

During follow up of Compliance Order #001, with respect to resident #004's use a specific safety device, Inspector #621 reviewed the resident's most current care plan, which identified that the specified safety device was to be monitored at identified intervals.

On further review of resident #004's healthcare record, Inspector #621 identified a specific record which indicated that the safety device was to be monitored at specific time intervals. Additionally, the Inspector found missing documentation for a specific number of dates and times, where required checks of the safety device, were not recorded.

During an interview with the home's Resident Assessment Instrument (RAI) Coordinator, they reported that in keeping with the home's policy, they revised resident #004's care plan, starting on a particular date in December 2019, to include monitoring checks of resident #004's safety device, at specified time intervals. The RAI Coordinator identified that PSW's were to complete the required monitoring and document this within a specific area of the resident's healthcare record. On review of resident #004's December 2019 healthcare record, the RAI Coordinator confirmed that there was missing documentation for the three identified dates and times, related to safety device monitoring.

During an interview with the Associate Director of Care, they reported that it was their expectation, that if a resident's care plan identified safety device monitoring at specified intervals of time, that staff documented the required monitoring as per the home's process. [s. 231. (b)]
