Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (a requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.)

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.)

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

**WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 5.
Every licensee of a long-term care home shall ensure that the home is a safe and secure environment for its residents. 2007, c. 8, s. 5.**

Findings/Faits saillants :

(A1)

1. The licensee has failed to ensure that the home is a safe and secure environment for its residents.

As per Minister's Directive, Long-term care home surveillance testing and access to homes, issued pursuant to s. 174.1 of the Long-Term Care Homes Act, 2007, (effective date of January 8, 2021 and updated on February 16, 2021), related to surveillance testing and access to LTC homes that are not experiencing a specified outbreak, every licensee shall ensure that staff working in or visiting a long-term care home take a required test at an established frequency in designated public health unit regions or shutdown zones.

The home is located in a public health unit which was included in a province-wide shutdown during a specified period and in a zone which required testing to be done at an established frequency.

The testing data report submitted to the Ministry of Long Term Care (MLTC) indicated that an unknown number of staff members missed the scheduled swabbing clinic for a reported period, entered the home and passed through the screening process. In interviews with registered staff #'s 102, #105 and PSW #106, it was confirmed that staff members did not have a required test completed prior to entering the home and worked on several dates over an established period.

By failing to ensure the staff members were tested prior to entering the home, there was a risk of further transmission of a virus in the home.

LTCHA, 2007 S.O. 2007, c.8, s. 5. Every licensee of a long-term care home shall ensure that the home is a safe and secure environment for its residents. 2007, c. 8, s. 5.

Order / Ordre :

(A1)

The licensee must be compliant with s. 5 of the LTCHA.

1). Staff working in the home must take Antigen Tests or PCR Tests in accordance with and at the frequency prescribed in the Minister's Directive: COVID-19: long-term care home surveillance testing and access to homes.

2). Maintain a documented record of all staff who complete the required tests (PCR or Antigen Tests) and provide such document to the inspector upon request.

Grounds / Motifs :

1. The licensee has failed to ensure that the home is a safe and secure environment for its residents.

As per Minister's Directive: Long-term care home surveillance testing and access to homes, issued pursuant to s. 174.1 of the Long-Term Care Homes Act, 2007, (effective date of January 8, 2021 and updated on February 16, 2021), related to surveillance testing and access to LTC homes that are not experiencing an outbreak of a specified virus, every licensee shall ensure that staff working in or visiting a long-term care home take a required test every seven days in designated public health unit regions or shutdown zones.

The home is located in a public health unit which was included in the province-wide shutdown effective December 26, 2020, in a zone which required testing to be done

every seven days.

The testing data report submitted to the Ministry of Long Term Care (MLTC) indicated that an unknown number of staff members missed the scheduled swabbing clinic for a reported period, entered the home and passed through the screening process. In interviews with Registered staff #'s 102, #105 and PSW #106, it was confirmed that staff members did not have a required completed prior to entering the home and worked on several dates over an established period.

By failing to ensure the staff members were tested prior to entering the home, there was a risk of further transmission of a virus in the home.

RESOURCES: Mandatory Data Reporting submitted to the Ministry's Health Data Collection service website weekly by the home. An order was made by taking the following factors into account:

Severity: There was actual risk of harm to the residents due as there potential for possible transmission of infectious agents due to staff not participating in the implementation of surveillance testing.

Scope: The scope of this non-compliance is isolated as it relates to two out of 8 untested staff reviewed during the inspection.

Compliance History: In the previous 36 months, multiple WNs, VPCs and one CO were issued to the home related to different sub-sections of the legislation.
