WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 49. Falls prevention and management

Specifically failed to comply with the following:

s. 49. (2) Every licensee of a long-term care home shall ensure that when a resident has fallen, the resident is assessed and that where the condition or circumstances of the resident require, a post-fall assessment is conducted using a clinically appropriate assessment instrument that is specifically designed for falls. O. Reg. 79/10, s. 49 (2).

Findings/Faits saillants :

1. The licensee has failed to ensure that when the resident had fallen, a post fall assessment was conducted using a clinically appropriate assessment instrument specifically designed for falls.

Review of the the progress notes for deceased Resident #1 indicated the resident fell 6 times in a 4 month period. The first fall resulted in injury and transfer to hospital.

Review of the post fall assessments indicated:

- fall assessment completed for the first fall that occurred was missing the second page of the assessment (which includes recommendations to prevent further falls).
- there was no post-fall assessment completed for the second fall.
- there was no post-fall assessment completed for the third fall.
- the post-fall assessment completed for the fourth fall that occurred was incomplete (recommendations to prevent further falls section was blank)
- the post-fall assessment completed for the last fall that occurred was incomplete (recommendations to prevent further falls section was blank). [s. 49. (2)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that when a resident has fallen, the resident is assessed and a post fall assessment is completed using a clinically appropriate assessment instrument that is specifically designed for falls, to be implemented voluntarily.
