**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 55. Behaviours and altercations**

**Every licensee of a long-term care home shall ensure that,**

**(a) procedures and interventions are developed and implemented to assist residents and staff who are at risk of harm or who are harmed as a result of a resident's behaviours, including responsive behaviours, and to minimize the risk of altercations and potentially harmful interactions between and among residents; and**

**(b) all direct care staff are advised at the beginning of every shift of each resident whose behaviours, including responsive behaviours, require heightened monitoring because those behaviours pose a potential risk to the resident or others. O. Reg. 79/10, s. 55.**

**Findings/Faits saillants :**

1. Review of Resident #1's clinical health records indicated that Resident #1 had multiple incidents of aggression directed towards residents and staff within a three month time period.

Interview with home area staff and review of clinical documentation did not provide any evidence that procedures and interventions have been developed to assist residents and staff who are at risk of harm or who are harmed as result of the resident's behaviour and to minimize the risk of altercations and potentially harmful interactions between and among residents.
