Inspection Summary/Résumé de l'inspection

The purpose of this inspection was to conduct a Follow up inspection.

This inspection was conducted on the following date(s): August 19, 2019

An inspection (2018-587129-0001) was previously conducted in January 2018, related to door access control systems in the home and resident clinical assessments where bed rails were used. Two compliance orders were issued (#001 and #003) in February 2018. A follow-up inspection (2019-539120-0007) was conducted in February 2019, however neither compliance order was fully met and remained outstanding. Both compliance orders were re-issued in February 2019, with a compliance due date of May 2019. For this follow-up visit, the conditions in both compliance orders were fully met.

During the course of the inspection, the inspector(s) spoke with the Associate Director of Care, Restorative Coaches and registered staff.

During the course of the inspection, the inspector toured three home areas, randomly tested stairwell door alarms and the main entrance doors for connectivity to the resident-staff communication and response system, reviewed door security and bed safety policies, procedures, staff education records and reviewed resident clinical bed safety assessment records.

**The following Inspection Protocols were used during this inspection:
