**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 91. Every licensee of a long-term care home shall ensure that all hazardous substances at the home are labelled properly and are kept inaccessible to residents at all times. O. Reg. 79/10, s. 91.**

**Findings/Faits saillants :**

1. The licensee has failed to ensure that all hazardous substances were kept inaccessible to residents at all times.

On May 22, 2015 while conducting a tour of the home a housekeeping cart was observed to be unattended in a resident's room. The cart had a covered compartment containing several hazardous chemicals. The lid to the compartment containing the chemical was misplaced and obviously open. When the inspector lifted the lid, the hinges were noted to be unattached and the compartment was not locked.

Interview with the Maintenance Supervisor confirmed that the compartment was to be locked at all times when not attended and that the lid to the secure compartment was not functioning, leaving the chemicals accessible to residents.

Review of the home's policy titled Storage of Cleaning Supplies with a review date of February 2013 identified that the housekeeping cart was to be stored in the locked janitors room when not in use and that the housekeeping cart must not be left unattended at any time when not locked in the janitors room.

The licensee failed to ensure that all hazardous substances were kept inaccessible to residents at all times. [s. 91.]

***Additional Required Actions:***

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance ensuring that all hazardous substances are labeled properly and kept inaccessible to residents at all times, to be implemented voluntarily.***
