WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6.

Plan of care

Specifically failed to comply with the following:

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Findings/Faits saillants :

1. The licensee has failed to ensure that the care set out in the plan of care was provided to the resident as specified in the plan.

Observation of Resident # 001 revealed the resident was asleep lying in bed with bed rails in use. The resident required specific fall prevention strategies in place to reduce risk.

Record review of the current care plan revealed interventions in place for risk of falls. The interventions stated specific monitoring times and for the call bell to be within easy reach at all times.

Observation of resident's room revealed specific monitoring times were not performed as indicated in the care plan.

Staff interview with a Personal Support Worker (PSW) confirmed the call bell should be within easy reach at all times. Staff interview with two PSWs confirmed interventions in the kardex for specific monitoring times were not followed. [s. 6. (7)]

Findings/Faits saillants :

1. The licensee has failed to ensure that the home had a resident-staff communication response system that can be easily seen, accessed, and used by residents, staff and visitors at all times.

Observation of Resident # 001 revealed the resident was asleep lying in bed and the call bell was lying across the armchair four feet away from the resident.

The plan of care revealed the call bell was to be accessible to the resident. Inspector activated call bell as the call bell was not accessible to the resident at that time and the resident requested assistance.

The PSW confirmed the call bell should be pinned to the resident while in bed and confirmed the call bell was not easily seen or accessed by the resident at this time. [s. 17. (1) (a)]
