1. The licensee has failed to ensure that the care set out in the plan of care was provided to resident #1 as specified in the plan.

Staff interview and record review confirm that resident #1's responsive behaviours include restlessness, wandering, going into other residents' rooms and going through their belongings. At times resident #1 takes their clothes, socks, shoes and incontinence briefs. Resident #1 was also found urinating and defecating on the floor throughout the unit, which upsets other residents on the unit.

Resident #1 was referred to and assessed by external specialized resources. The specialized resource team concluded that resident #1's agitation is mostly related to the environment and the need to use the washroom; and recommended routine toileting of the resident, especially after meals.

Resident #1's plan of care for urinary and bowel incontinence states to toilet resident before/after meals and before bedtime.

Staff interview confirms that resident #1 is not being consistently toileted before and after meals. [s. 6. (7)]

Additional Required Actions:

***VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2)
the licensee is hereby requested to prepare a written plan of correction for
achieving compliance to ensure that the care set out in the plan of care is
provided to the resident #1 as specified in the plan, to be implemented
voluntarily.***
