Légende

WN – Avis écrit
 VPC – Plan de redressement volontaire
 DR – Aiguillage au directeur
 CO – Ordre de conformité
 WAO – Ordres : travaux et activités

Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (a requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA).

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD).

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 229. Infection prevention and control program

Specifically failed to comply with the following:

s. 229. (4) The licensee shall ensure that all staff participate in the implementation of the program. O. Reg. 79/10, s. 229 (4).

Findings/Faits saillants :

Inspection Report under the Long-Term Care Homes Act, 2007**Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

1. The licensee has failed to ensure that all staff participate in the implementation of the infection prevention and control program specifically related to assisting residents to perform hand hygiene before and after meals.

Evidenced-based practice indicates that staff should assist residents to perform hand hygiene before and after meals. The lunch meal service observations on the second floor dining room revealed that some residents hands were not cleaned before the meal. According to a PSW, residents hands are cleaned with alcohol-based hand rub in their rooms prior to them coming to the dining room for their meal. Writer observed residents receiving care immediately prior to lunch and did not witness any hand hygiene being performed.

The licensee's hand hygiene policy which is part of the home's Infection Prevention and Control (IPAC) program indicated that residents should perform or be assisted to perform hand hygiene before and after eating.

Lack of hand hygiene increases the risk of disease transmission among residents and staff.

Sources: Public Health Ontario - Best Practices for Hand Hygiene in All Health Care Settings, 4th Edition (April 2014), Extendicare IC-02-01-08 Hand Hygiene, last reviewed: June 2021 ,observation of lunch service, and interview with, PSW #100. [s. 229. (4)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that all staff participate in the implementation of the infection prevention and control program specifically related to assisting residents to perform hand hygiene before and after meals, to be implemented voluntarily.
