Inspection Summary/Résumé de l'inspection

Inspection Report under the Long-Term Care Homes Act, 2007**Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

The purpose of this inspection was to conduct a Complaint inspection.

This inspection was conducted on the following date(s): January 4, 5, 6 and 7, 2021.

The following intakes were inspected during this Complaint inspection:

- A follow up to CO #001 issued on September 14, 2020, within inspection report #2020_598570_0004, related to LTCHA, 2007 S.O. 2007, c.8, s. 6. (7).
- A complaint, related to care concerns.

During the course of the inspection, the inspector(s) spoke with the Executive Director (ED), the Acting Director of Care (ADOC), consultants from corporate office, Office Manager, Nursing Clark, RAI MDS coordinator, Registered Practical Nurses (RPN), and Personal Support Workers (PSW).

During the course of the inspection, the inspector toured residents' home areas, conducted observations, and reviewed clinical records.

The following Inspection Protocols were used during this inspection:

Falls Prevention

Infection Prevention and Control

Personal Support Services

During the course of this inspection, Non-Compliances were issued.

Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (a requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA).

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD).

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 229. Infection prevention and control program

Specifically failed to comply with the following:

s. 229. (4) The licensee shall ensure that all staff participate in the implementation of the program. O. Reg. 79/10, s. 229 (4).

Findings/Faits saillants :

1. The licensee has failed to ensure that staff participated in the implementation of the Infection Prevention and Control (IPAC) program.

A Critical Incident System (CIS) report was submitted to the Director related to an outbreak in the home. There were a significant number of residents and staff infected with an illness during the outbreak.

Observations throughout the home were conducted and the following was noted:

- Overflowing small garbage bins with used personal protective equipment (PPE) were noted in several residents' rooms in the home.
- Infection control caddies were spaced out between rooms; not every room had a designated infection control caddy.
- A staff member was witnessed coming to the residents' home area wearing full PPE and indicated they were coming from the kitchen area.
- PSW #105 was observed with full PPE, delivered lunch to residents in two different rooms without changing their PPE. Both rooms had signage of precautions that require staff to wear PPE.

A review of the CIS report related to the outbreak, indicated the home identified several measures to manage the outbreak including the use of privacy curtains in shared rooms. During observations, privacy curtains were noted open in several rooms creating an open space between residents in shared rooms in two residents' home area.

During an interview, RPN #108 confirmed that infection control caddies were not available at every resident room.

During separate interviews, PSWs #105 and #110 indicated that they were instructed not to change gowns when delivering meals and putting on the aprons for residents. Both PSWs confirmed that privacy curtains were not kept withdrawn as they had no instructions to do so.

During an interview, the Executive Director (ED) and acting director of care (ADOC) acknowledged that the garbage bins should be picked up more often and should not be overflowing with used PPE. The ED acknowledged that not all residents' rooms have a designated infection control caddy. The ED acknowledged that privacy curtains do not come together in shared residents' rooms due to the tracks for the ceiling lifts in those rooms. The ADOC indicated that it was an expectation that staff should wear PPE when entering residents rooms and remove PPE when exiting residents' rooms.

By failing to ensure that all staff participated in the implementation of the infection control program, there was a risk of transmission of infectious agents during the ongoing outbreak in the home. There were a significant number of residents and staff infected with an illness during the outbreak.

Sources: CIS report, observations throughout the home and staff interviews (PSW #105, PSW #110 RPN #106, ADOC and ED). [s. 229. (4)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the “Order(s) of the Inspector”.

**WN #2: The Licensee has failed to comply with O.Reg 79/10, s. 33. Bathing
Specifically failed to comply with the following:**

s. 33. (1) Every licensee of a long-term care home shall ensure that each resident of the home is bathed, at a minimum, twice a week by the method of his or her choice and more frequently as determined by the resident's hygiene requirements, unless contraindicated by a medical condition. O. Reg. 79/10, s. 33 (1).

Findings/Faits saillants :

Inspection Report under the Long-Term Care Homes Act, 2007**Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

1. The licensee failed to ensure that residents were bathed, at a minimum, twice a week by the method of their choice and more frequently as determined by the resident's hygiene requirements, unless contraindicated by a medical condition.

A complaint was received by the MLTC related to residents were not bathed regularly.

A review of residents #001, #002 and #003 clinical records for a four-month period, indicated resident #001 did not receive their scheduled bath on one occasion, resident #002 did not receive their scheduled baths on two occasions, resident #003 did not receive their scheduled baths on three occasions.

A review of progress notes for residents #001, #002 and #003 did not indicate that baths missed were offered or given at different dates.

In an interview the Executive Director (ED) and the acting director of care (ADOC) indicated that residents at the home receive two baths a week and any missed bath is given at a later time or date. The ED and ADOC acknowledged the lack of bathing documentation on the above identified dates for residents #001, #002 and #003 and were unable to confirm that baths were given at those dates.

Clinical records for residents #001, #002 and #003 did not include any documentation that the residents received two baths a week on a regular basis.

Sources: Clinical records for residents #001, #002 and #003; interview with the ED and ADOC. [s. 33. (1)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that each resident of the home is bathed, at a minimum, twice a week by the method of his or her choice and more frequently as determined by the resident's hygiene requirements, unless contraindicated by a medical condition, to be implemented voluntarily.

Order / Ordre :

The licensee must be compliant with s. 229 (4) of O. Reg. 79/10.

Specifically, the licensee must:

1. Continue with leadership monitoring and supervision in all residents home areas to ensure staff are adherent to the appropriate Infection Prevention and Control (IPAC) practices for the duration of the current outbreak.
2. Provide on the spot education and training to staff not adhering with appropriate IPAC measures until the current outbreak is resolved.
3. Ensure care caddies with PPE are readily available to staff in all home areas until the current outbreak is resolved.

Sources: CIS report, observations throughout the home and staff interviews (PSW #105, PSW #110 RPN #106, ADOC and ED).

An order was made by taking the following factors into account:

Severity: There was actual risk of harm to the residents as the outbreak was not contained and spread rapidly and severely throughout the home affecting both residents and staff.

Scope: The scope of this non-compliance was widespread because the IPAC related concerns were identified during observations throughout the home.

Compliance History: none related to this non-compliance. (570)
