Findings/Faits saillants :

Inspection Report under the Long-Term Care Homes Act, 2007**Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

1. The licensee has failed to ensure that the home was a safe and secure environment for residents.

The Chief Medical Officer of Health (CMOH) Directive #3 and COVID-19 Provincial Testing Guidance prohibits entry to LTC homes for staff who have not taken a Polymerase Chain Reaction (PCR) test at the prescribed frequency in the Directive #3. This Directive indicated a testing frequency of every seven days for staff in long-term care homes in public health unit regions in orange, red, grey or shutdown zones. As per the public health unit regions, Copernicus Lodge is located in a grey zone. The home was in Covid-19 outbreak from December 16, 2020 to February 26, 2021.

The home allowed 129 staff members including 70 of the home's staff members and 59 agency staff members to work in the home without taking a PCR test in the past 7 days, as they were not scheduled to work in the home and missed the home's scheduled testing clinics on February 12, 13, and 14, 2021.

The home allowed 71 staff members including 25 of the home's staff members and 46 agency staff members to work in the home without taking a PCR test in the past 7 days, as they were not scheduled to work in the home as missed the home's scheduled testing clinics on February 17, 18, and 19, 2021.

These staff members worked in the home on a regular basis and did not identify as positive with COVID-19 at anytime.
