1. The licensee did not ensure that all the staff of the home, had the proper skills and qualifications to perform their duties.

A. On August 18, 2013, an employee worked in the kitchen covering the position of a dietary aide from the hours of 0600 until 1100 hours. Interview with the staff member confirmed they did not have a Food Service Worker certificate or completed a Food Handler Training program. Interview with the FSM confirmed that due to staffing shortages the employee was called to work in the dietary department for the identified shift with limited responsibilities.

B. On August 17, 2013, during the 2300 to 0700 hours shift, an employee was called to work in the nursing department as an unregulated care provider due to staff shortages. Interview with DON and FSM confirmed that this employee did not complete a Personal Support Workers program that met the requirements in the regulations. The Resident Outcomes Coordinator confirmed that the employee was called to cover the nursing department shift. This was done to ensure the minimum staffing requirement for resident safety.

Interviews with management and front line nursing staff identified no knowledge of prior episodes where staff without the required education, as set out in the regulations, provided coverage for the nursing and dietary departments. Management staff have confirmed that since August 2013, they have increased the compliment of casual staff for their departments. [s. 73. (a)]
