The purpose of this inspection was to conduct a Follow up inspection.

This inspection was conducted on the following date(s): March 1, 2, 3, 2017

This inspection included Follow Up Inspection Log #'s 029001-16 related to nutrition and hydration policies, 029012-16 related to bathing preferences, 029015-16 related to foot care services, 029017-16 related to fingernail care, 029019-16 related to safe transfers, 029020-16 related to assessment with significant weight changes, and 029021-16 related to resident charges; and was completed concurrently with Complaint Inspection # 2017_570528_0009

During the course of the inspection, the inspector(s) spoke with the Administrators, Director of Care, Assistant Director of Care, Food Service Manager, Business Services Manager, Resident Assessment Instrument (RAI) Coordinator, registered nurse (RN), registered practical nurses (RPN), personal support workers (PSW), residents and families.

During the course of the inspection, the inspector also observed the provision of care and services, reviewed documents including but not limited to: clinical health records, policies and procedures, education records, and resident charges statements.

The following Inspection Protocols were used during this inspection:
Dignity, Choice and Privacy
Nutrition and Hydration
Personal Support Services
Resident Charges

During the course of this inspection, Non-Compliances were issued.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 36. Every licensee of a long-term care home shall ensure that staff use safe transferring and positioning devices or techniques when assisting residents. O. Reg. 79/10, s. 36.

Findings/Faits saillants :

1. The licensee failed to ensure that staff used safe transferring and positioning devices or techniques when assisting residents.

During the course of the inspection, RPN #200 identified that resident #138 required the use of a specific lift that required the resident to weight bear. Review of the resident's plan of care identified that in July 2016, physiotherapy assessed the resident related to transfers and determined the resident was not able to weight bear. Interview with PSW #208 and #209 confirmed that they had used the lift, which required the resident to weight bear, to transfer the resident in the past few months. The document the home referred to as the care plan and the posted transfer logo directed staff to use specified mechanical lifts for the provision of care. Interview with RPN #200 confirmed that the resident's plan of care directed staff to use a specific mechanical lift for all transfers since July 2016, and was unsure as to why some of the staff inconsistently continued to use the lift that required the resident to weight bear. (528) [s. 36.]

Additional Required Actions:

**VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2)
the licensee is hereby requested to prepare a written plan of correction for
achieving compliance to ensure that staff use safe transferring and positioning
devices or techniques when assisting residents, to be implemented voluntarily.**
