WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care

Specifically failed to comply with the following:

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Findings/Faits saillants :

1. The licensee has failed to ensure that the care set out in the plan of care was provided to resident #001 as specified in the plan.

Inspector #684 reviewed compliance order #001 related to LTCHA, 2007, s. 6. (7) which required the licensee to ensure that the care set out in the plan of care was provided to the resident as specified in the plan by November 10, 2017, the order was as follows "The licensee shall ensure that for every resident at risk for falls, staff provide care as specified in each resident's plan of care, including falls prevention for resident #002."

Inspector #684 observed resident #001 enter a specific area of the home, alone at 1010 hours. The Inspector did not observe staff check on the resident for 15 minutes. During this observation, Inspector #684 noted a specific intervention was not applied to the resident's ambulatory device; therefore, there was no notice to staff that the resident ambulated to a specific area of the home.

A review of resident #001's care plan indicated that staff were to provide close monitoring when the resident was back and forth from a specific area of the home in order to prevent falls and that they could not be left unattended in the specific area. The care plan further indicated that specific interventions were to be in place at bedside and on when in bed.

Inspector #684 brought to the attention of RPN #103, that resident #001 was unattended in a specific area of the home; RPN #103 was unaware that the resident was in the specific area of the home. RPN #103 asked PSW #105 if they knew that resident #001 was in a specific area of the home; they were unaware as well. RPN #103 informed PSW #105 that they needed monitor the resident while they were in the specific area of the home.

In an interview with PSW #102 they stated that should resident #001 use their ambulatory device, there was a specific intervention that was to be implemented to notify staff if the resident attempted to ambulate.

In an interview with RPN #103, they confirmed that the resident's ambulatory device, and a specific intervention, was not initiated as per resident #001's care plan. RPN#103 also confirmed that resident was in a specific area of the home with no staff attending to them. [s. 6. (7)]
