Every licensee of a long-term care home shall ensure that steps are taken to ensure the security of the drug supply, including the following:

1. All areas where drugs are stored shall be kept locked at all times, when not in use.
2. Access to these areas shall be restricted to,
 - i. persons who may dispense, prescribe or administer drugs in the home, and
 - ii. the Administrator.
3. A monthly audit shall be undertaken of the daily count sheets of controlled substances to determine if there are any discrepancies and that immediate action is taken if any discrepancies are discovered. O. Reg. 79/10, s. 130.

Findings/Faits saillants :

1. The door of the "consultation room" on a resident unit was observed to be open. The treatment cart was stored in this room with treatment creams on top and in the unlocked drawers of the cart. These medications were accessible to residents.
 A sign was visible on the door that stated the door was to be locked at all times when not in use.
 The Administrator and Director of Care confirmed that the expectation is that this door is to be locked at all times when staff are not using the room. [O.Reg. 79/10 s.130(1)]
