WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 148. Requirements on licensee before discharging a resident

Specifically failed to comply with the following:

- s. 148. (2) Before discharging a resident under subsection 145 (1), the licensee shall,**
- (a) ensure that alternatives to discharge have been considered and, where appropriate, tried; O. Reg. 79/10, s. 148 (2).**
 - (b) in collaboration with the appropriate placement co-ordinator and other health service organizations, make alternative arrangements for the accommodation, care and secure environment required by the resident; O. Reg. 79/10, s. 148 (2).**
 - (c) ensure the resident and the resident's substitute decision-maker, if any, and any person either of them may direct is kept informed and given an opportunity to participate in the discharge planning and that his or her wishes are taken into consideration; and O. Reg. 79/10, s. 148 (2).**
 - (d) provide a written notice to the resident, the resident's substitute decision-maker, if any, and any person either of them may direct, setting out a detailed explanation of the supporting facts, as they relate both to the home and to the resident's condition and requirements for care, that justify the licensee's decision to discharge the resident. O. Reg. 79/10, s. 148 (2).**

Findings/Faits saillants :

1. The licensee has failed to ensure that before a resident was discharged under subsection 145(1), there was b) collaboration with the appropriate placement coordinator and other health service organizations to make alternative arrangements for the accommodation, care and secure environment required by the resident, c) that the resident and the resident's substitute decision maker, were kept informed and given opportunity to participate in the discharge planning and that their wishes were taken into consideration and d) that a written notice was provided to the resident, and resident's substitute decision maker, that set out a detailed explanation of the supporting facts, as they related both to the home and to the resident's condition and requirements for care that justified the licensee's reason for discharge.

Resident #001 was given a letter of discharge by the Director of Care of the Long-Term Care home while temporarily away from the home receiving care. The discharge was effective immediately. The resident had no prior discussions or communication from the home that this discharge would be taking place that day. The resident was also not permitted to stay longer in temporary care and therefore had no home to go to if they could not return to Forest Heights.

The home had not contacted the Community Care Access Centre (CCAC) placement coordinator and other health services to collaborate regarding alternate arrangements for the accommodation and care of the resident before the discharge. There were no plans in place for alternate accommodation at that time. As the CCAC was not aware of the discharge prior to this, the CCAC had not met with the resident nor completed an assessment before the discharge date. This was confirmed by the CCAC and the home's administration.

A progress note indicated the power of attorney was notified on the same day as the resident. Neither the resident nor the substitute decision-maker were given an opportunity to participate in the discharge planning.

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

the home and to the resident's condition and requirements for care that justified the licensee's reason for discharge.

Resident #001 was given a letter of discharge by the Director of Care of the Long-Term Care home while temporarily away from the home receiving care. The discharge was effective immediately. The resident had no prior discussions or communication from the home that this discharge would be taking place that day. A progress note indicated the power of attorney was notified on the same day as the resident. Neither the resident nor the substitute decision-maker were given an opportunity to participate in the discharge planning.

The scope of this issue is isolated to this one resident, there is no compliance history of this regulation being issued in the home. The severity is determined to be a level 3 as the resident will have no home to go to if they can not return to Forest Heights and this will negatively affect the resident's health, safety and well-being.
