WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 49. Falls prevention and management

Specifically failed to comply with the following:

s. 49. (2) Every licensee of a long-term care home shall ensure that when a resident has fallen, the resident is assessed and that where the condition or circumstances of the resident require, a post-fall assessment is conducted using a clinically appropriate assessment instrument that is specifically designed for falls. O. Reg. 79/10, s. 49 (2).

Findings/Faits saillants :

1. The licensee failed to ensure that a post fall assessment was completed after a resident sustained a fall.

A review of the progress notes indicated that the resident sustained a fall. According to the home's policy titled, "Osteoporosis Program and Fall Management", effective May 2017, a post fall assessment is completed electronically after the resident sustains a fall. A post fall assessment was not found related to this resident's fall. An RN confirmed that a post fall assessment was not completed related to their fall and should have been.

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that when a resident has fallen, the resident is assessed and that where the condition or circumstances of the resident require, a post-fall assessment is conducted using a clinically appropriate assessment instrument that is specifically designed for falls, to be implemented voluntarily.
