WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 30. General requirements

Specifically failed to comply with the following:

s. 30. (2) The licensee shall ensure that any actions taken with respect to a resident under a program, including assessments, reassessments, interventions and the resident's responses to interventions are documented. O. Reg. 79/10, s. 30 (2).

Findings/Faits saillants :

1. The licensee has failed to ensure that any actions taken with respect to a resident under a program, including assessments, reassessments, interventions and the resident's responses to interventions were documented.

Resident #001 had a plan of care indicating that they had a history of responsive behaviours. The interviews with registered staff #102 and #104 indicated that resident had potential triggers for responsive behaviours.

The Resident Assessment Protocol (RAP) in June 2016, identified triggers for resident's responsive behaviours.

The review of resident's health care records indicated that the written plan of care did not include the potential triggers for resident's behaviours. The DOC was interviewed and stated that the triggers were to be documented in resident's care plan and confirmed that this was not done for resident #001.

The resident's behavioural triggers were not documented in resident's written plan of care. [s. 30. (2)]
