WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care

Specifically failed to comply with the following:

s. 6. (4) The licensee shall ensure that the staff and others involved in the different aspects of care of the resident collaborate with each other,

(a) in the assessment of the resident so that their assessments are integrated and are consistent with and complement each other; and 2007, c. 8, s. 6 (4).

(b) in the development and implementation of the plan of care so that the different aspects of care are integrated and are consistent with and complement each other. 2007, c. 8, s. 6 (4).

Findings/Faits saillants :

The licensee has failed to ensure that the staff and others involved in the different aspects of care of the resident collaborated with each other in the development and implementation of the plan of care so that the different aspects of care were integrated and were consistent with and complement each other.

Ministry of Long-term Care (MLTC) received a complaint related to care concerns for resident #003.

The resident's Substitute Decision Maker (SDM) requested to Registered Practical Nurse (RPN) #105 that the Physiotherapist (PT) should not visit the resident due to COVID-19 outbreak on other floors. RPN #105 acknowledged SDM's concern and documented in Point Click Care (PCC).

The resident was receiving PT visits and the physiotherapy continued, as the PT did not receive a referral or any kind of communication from nursing staff to stop PT visits with the resident. The resident was visited for PT services on four days after the SDM had made a request for PT not to visit the resident.
