soins de longue durée**

The purpose of this inspection was to conduct a Complaint inspection.

This inspection was conducted on the following date(s): January 3, 4, 5, 9, and 10, 2018.

The following intake was inspected concurrently during this inspection: Log #020231-17.

During the course of the inspection, the inspector observed staff to resident interactions, reviewed staff schedule, clinical health records, the home's investigation notes, and relevant home policies and procedures.

During the course of the inspection, the inspector(s) spoke with the resident, Substitute Decision-Maker (SDM), Personal Support Workers (PSWs), Registered Practical Nurses (RPNs), Registered Nurses (RNs), Physiotherapist (PT), RAI-MDS Back Up Nurse, Nurse Designate (ND), Director of Care (DOC), and the Executive Director.

The following Inspection Protocols were used during this inspection:

Hospitalization and Change in Condition

Pain

Personal Support Services

Prevention of Abuse, Neglect and Retaliation

During the course of this inspection, Non-Compliances were issued.

WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6. Plan of care

Specifically failed to comply with the following:

s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Findings/Faits saillants :

1. The licensee has failed to ensure that the care set out in the plan of care had been provided to the resident as specified in the plan.

The Ministry of Health and Long-Term Care (MOHLTC) ACTIONLine received a complaint on an identified date, related to the care of resident #001.

The concerns from the complainant were as follows:

- On an identified date, the resident was diagnosed with an unexplained injury.
- The resident stated to the Substitute Decision-Maker (SDM) that they had been dropped on the floor while being transferred from the bed to their wheelchair.

Review of resident #001's health records indicated they were admitted to the home on an identified date, with an identified medical diagnosis, and medical history.

Review of resident #001's progress notes within an identified time period, revealed the following:

-On an identified date and time, the resident complained of pain on an identified area of the body. An identified as needed medication was given. At an identified time, the Physiotherapist (PT) assessed the resident as they had complained of constant localized aching pain in their identified body part which started in the morning. No injury or incident as per the resident and Personal Support Worker (PSW). Later in the afternoon the attending physician had seen the resident and documented that resident #001 had pain, and signs of injury to an identified body part. The attending physician ordered further identified assessments for the two identified body parts.

-On an identified date and time, Registered Nurse (RN) #104 documented, that resident #001 complained of pain on an identified body part, especially upon movement during care. An identified as needed medication had been given to the resident at an identified time, and an order for an assessment for the identified body part was obtained from the attending physician. The resident denied any pain when reassessed by the RN. Registered Practical Nurse (RPN) #102 documented at an identified time, that they noted signs of injury on the identified body part, and the resident complained of pain to an identified body part. An as needed medication had been given to the resident with good effect. Resident's SDM aware of new orders.

-During an identified period of time, the resident continued to complain of pain on the identified body part. On an identified date and time, the resident was sent to hospital for further assessment and returned the same day at a later time with an identified medical diagnosis. A review of the hospital's emergency record revealed there was no significant

injury.

-On an identified date, a further assessment was done at the home on the resident's two identified body parts. Later on in the evening, results had been received and did not indicate any injury. The on-call physician ordered a further identified assessment to the identified body part for a more detailed evaluation.

-On an identified date and time, the attending physician had seen the resident noting changes to an identified body part. On the same day, at a later time, RPN #102 received a verbal report from the diagnostic company confirming injury on the resident's identified body part. On-call physician was notified, and the resident was sent to the hospital.

Review of the resident's hospital note on an identified date, revealed that the resident sustained another injury to a different body part during the identified procedure.

Review of the resident's identified discharge summary on an identified date indicated that the resident was at high risk for recurrent injury.

Review of resident #001's identified assessment on an identified date, revealed they were totally dependent on staff, and received two person physical assist for bed mobility, dressing, and personal hygiene.

Interviews with day, evening, and night PSWs #108, #109, #110, #114, and #115, stated that the resident was total care and required two staff assistance prior to sustaining the injury, due to physical limitations. Interviews with day, evening, and night RPNs #102, #116, and RNs #101, 104, #111, and the RAI-MDS Back Up Nurse indicated that the resident had an identified medical diagnosis, and required two staff assistance for care even prior to sustaining the injury.

Interview with PSW #107 stated that prior to the resident sustaining the injury, the PSW provided morning care to the resident and turning them in bed unassisted at times. The PSW provided the resident's care that morning when the resident initially complained of pain on the identified body part. PSW #107 provided care to the resident as usual, and while giving care, right after the PSW turned the resident on their side, the resident complained of pain on the identified body part. The PSW provided the care by themselves that morning, and continued the care because the resident was not in great pain. The resident remained in bed, and the PSW notified the RN and the PT after the care was finished. PSW #107 acknowledged that the resident required two staff for care and in

hindsight, the PSW would have asked for another PSW to assist with resident #001's care.

Interview with the Director of Care (DOC) stated that a resident's plan of care indicated how the care will be provided to the resident. The DOC also indicated that resident #001 had always been very fragile due to their medical diagnosis, and so required two staff for care. The DOC acknowledged the above mentioned information, and confirmed that in this case, care had not been provided to the resident as specified in the plan of care. They further acknowledged that providing the care to the resident with only one staff instead of two staff as required, had resulted to a risk of harm to the resident.

The severity of the non-compliance was actual risk.

The scope of the non-compliance was isolated to resident #001.

A review of the home's compliance history within the last three years revealed Voluntary Plan of Corrections (VPCs) were previously issued for noncompliances related to the Long-Term Care Homes Act, 2007, s. 6. within the following inspection reports:

-#2016_417178_0005 dated May 3, 2016,

-#2015_398605_0013 dated June 11, 2015. [s. 6. (7)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

**WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 24.
Reporting certain matters to Director**

Specifically failed to comply with the following:

s. 24. (1) A person who has reasonable grounds to suspect that any of the following has occurred or may occur shall immediately report the suspicion and the information upon which it is based to the Director:

- 1. Improper or incompetent treatment or care of a resident that resulted in harm or a risk of harm to the resident. 2007, c. 8, s. 24 (1), 195 (2).**
- 2. Abuse of a resident by anyone or neglect of a resident by the licensee or staff that resulted in harm or a risk of harm to the resident. 2007, c. 8, s. 24 (1), 195 (2).**
- 3. Unlawful conduct that resulted in harm or a risk of harm to a resident. 2007, c. 8, s. 24 (1), 195 (2).**
- 4. Misuse or misappropriation of a resident's money. 2007, c. 8, s. 24 (1), 195 (2).**
- 5. Misuse or misappropriation of funding provided to a licensee under this Act or the Local Health System Integration Act, 2006. 2007, c. 8, s. 24 (1), 195 (2).**

Findings/Faits saillants :

1. The licensee has failed to ensure that a person who had reasonable grounds to suspect that any of the following had occurred or may occur shall immediately report the suspicion and the information upon which it was based to the Director: Abuse of a resident by anyone or neglect of a resident by the licensee or staff that resulted in harm or a risk of harm to the resident.

The MOHLTC ACTIONLine received a complaint on an identified date, related to the care of resident #001.

The concerns from the complainant were as follows:

- On an identified date, the resident was diagnosed with an unexplained injury.
- The resident stated to the SDM that they had been dropped on the floor while being transferred from the bed to their wheelchair.

On an identified date and time, the home submitted a Critical Incident Report (CIS), related to an incident that caused an injury to a resident for which the resident was taken to hospital and which resulted in a significant change in the resident's health status. The CIS indicated that on an identified date and time, RPN #102 received a verbal report from the diagnostic company confirming injury on the resident's identified body part. RPN #102 notified the on-call physician and they ordered to send the resident to the hospital.

Review of resident #001's diagnostic results for the identified body part on an identified date, revealed an identified injury.

Review of progress note on identified date and time, indicated that the resident's SDM was informed that resident #001 had been sent to the hospital due to an injury. The SDM was very upset and that someone must have been abusing the resident. The SDM requested a full investigation, and RPN #102 informed the Nurse Designate (ND) and the DOC.

Review of the home's policy titled "Resident Non-Abuse: Zero Tolerance of Abuse and Neglect of Residents" policy #1.12, revised February 2016, indicated that one of the indicators of abuse was unexplained injuries.

Interview with RPN #102 stated that the staff had not been aware of any incident that may have caused the injury. The RPN confirmed the above mentioned documentation and further acknowledged that the resident's SDM's statement was an allegation of abuse, and they reported it to the ND. Interview with RN #111 who was the ND that evening, confirmed the above mentioned documentation, and acknowledged it as an allegation of abuse.

Interview with the DOC stated they had been informed by RPN #102 regarding the conversation that transpired with the SDM, that same evening. On the following day, the DOC had spoken to the SDM and the SDM was upset and accusing the home of abuse. The DOC confirmed that in the event that a family member approaches the staff and alleges that abuse had happened to a resident, the MOHLTC would have to be called immediately. [s. 24. (1) 2.]

de l'article 154 de la *Loi de 2007 sur les foyers
de soins de longue durée, L.O. 2007, chap. 8*

Order # /

Ordre no : 001

Order Type /

Genre d'ordre : Compliance Orders, s. 153. (1) (a)

Pursuant to / Aux termes de :

LTCHA, 2007 S.O. 2007, c.8, s. 6. (7) The licensee shall ensure that the care set out in the plan of care is provided to the resident as specified in the plan. 2007, c. 8, s. 6 (7).

Order / Ordre :

The Licensee must be compliant with LTCHA, 2007, c. 8, s. 6 (7). Specifically, the Licensee shall ensure the following is in place for resident #001 and any other resident with similar physical needs:

1. Review the resident's current plan of care with the Personal Support Workers (PSWs), Registered Practical Nurses (RPNs), and Registered Nurses (RNs), who are responsible for the resident's care. Maintain a record of the review, including the content, facilitator, attendees, dates, and times.
2. Ensure all direct care staff that provide care to the resident, follow the plan of care regarding the number of staff required to provide assistance for bed mobility, transfers, continence care, and personal hygiene.
3. Review with all direct care staff the nature of this incident and the importance of providing care to the resident as specified in the plan. Maintain a record of the review, including the content, facilitator, attendees, dates, and times.

The above mentioned documentation shall be available to the inspector upon request. This order shall be complied no later than April 25, 2018.

Grounds / Motifs :

1. The licensee has failed to ensure that the care set out in the plan of care had been provided to the resident as specified in the plan.

The Ministry of Health and Long-Term Care (MOHLTC) ACTIONLine received a complaint on an identified date, related to the care of resident #001.

The concerns from the complainant were as follows:

- On an identified date, the resident was diagnosed with an unexplained injury.
- The resident stated to the Substitute Decision-Maker (SDM) that they had been dropped on the floor while being transferred from the bed to their wheelchair.

Review of resident #001's health records indicated they were admitted to the home on an identified date, with an identified medical diagnosis, and medical history.

Review of resident #001's progress notes within an identified time period, revealed the following:

-On an identified date and time, the resident complained of pain on an identified area of the body. An identified as needed medication was given. At an identified time, the Physiotherapist (PT) assessed the resident as they had complained of constant localized aching pain in their identified body part which started in the morning. No injury or incident as per the resident and Personal Support Worker (PSW). Later in the afternoon the attending physician had seen the resident and documented that resident #001 had pain, and signs of injury to an identified body part. The attending physician ordered further identified assessments for the two identified body parts.

-On an identified date and time, Registered Nurse (RN) #104 documented, that resident #001 complained of pain on an identified body part, especially upon movement during care. An identified as needed medication had been given to the resident at an identified time, and an order for an assessment for the identified body part was obtained from the attending physician. The resident denied any pain when reassessed by the RN. Registered Practical Nurse (RPN) #102 documented at an identified time, that they noted signs of injury on the identified body part, and the resident complained of pain to an identified body part. An as needed medication had been given to the resident with good effect. Resident's SDM aware of new orders.

-During an identified period of time, the resident continued to complain of pain on the identified body part. On an identified date and time, the resident was sent to hospital for further assessment and returned the same day at a later time with an identified medical diagnosis. A review of the hospital's emergency record revealed there was no significant injury.

-On an identified date, a further assessment was done at the home on the

resident's two identified body parts. Later on in the evening, results had been received and did not indicate any injury. The on-call physician ordered a further identified assessment to the identified body part for a more detailed evaluation.

-On an identified date and time, the attending physician had seen the resident noting changes to an identified body part. On the same day, at a later time, RPN #102 received a verbal report from the diagnostic company confirming injury on the resident's identified body part. On-call physician was notified, and the resident was sent to the hospital.

Review of the resident's hospital note on an identified date, revealed that the resident sustained another injury to a different body part during the identified procedure.

Review of the resident's identified discharge summary on an identified date indicated that the resident was at high risk for recurrent injury.

Review of resident #001's identified assessment on an identified date, revealed they were totally dependent on staff, and received two person physical assist for bed mobility, dressing, and personal hygiene.

Interviews with day, evening, and night PSWs #108, #109, #110, #114, and #115, stated that the resident was total care and required two staff assistance prior to sustaining the injury, due to physical limitations. Interviews with day, evening, and night RPNs #102, #116, and RNs #101, 104, #111, and the RAI-MDS Back Up Nurse indicated that the resident had an identified medical diagnosis, and required two staff assistance for care even prior to sustaining the injury.

Interview with PSW #107 stated that prior to the resident sustaining the injury, the PSW provided morning care to the resident and turning them in bed unassisted at times. The PSW provided the resident's care that morning when the resident initially complained of pain on the identified body part. PSW #107 provided care to the resident as usual, and while giving care, right after the PSW turned the resident on their side, the resident complained of pain on the identified body part. The PSW provided the care by themselves that morning, and continued the care because the resident was not in great pain. The resident remained in bed, and the PSW notified the RN and the PT after the care was finished. PSW #107 acknowledged that the resident required two staff for care

REVIEW/APPEAL INFORMATION

TAKE NOTICE:

The Licensee has the right to request a review by the Director of this (these) Order(s) and to request that the Director stay this (these) Order(s) in accordance with section 163 of the Long-Term Care Homes Act, 2007.

The request for review by the Director must be made in writing and be served on the Director within 28 days from the day the order was served on the Licensee.

The written request for review must include,

- (a) the portions of the order in respect of which the review is requested;
- (b) any submissions that the Licensee wishes the Director to consider; and
- (c) an address for services for the Licensee.

The written request for review must be served personally, by registered mail, commercial courier or by fax upon:

Director

RENSEIGNEMENTS RELATIFS AUX RÉEXAMENS DE DÉCISION ET AUX APPELS

PRENEZ AVIS :

Le/la titulaire de permis a le droit de faire une demande de réexamen par le directeur de cet ordre ou de ces ordres, et de demander que le directeur suspende cet ordre ou ces ordres conformément à l'article 163 de la Loi de 2007 sur les foyers de soins de longue durée.

La demande au directeur doit être présentée par écrit et signifiée au directeur dans les 28 jours qui suivent la signification de l'ordre au/à la titulaire de permis.

La demande écrite doit comporter ce qui suit :

- a) les parties de l'ordre qui font l'objet de la demande de réexamen;
- b) les observations que le/la titulaire de permis souhaite que le directeur examine;
- c) l'adresse du/de la titulaire de permis aux fins de signification.

La demande de réexamen présentée par écrit doit être signifiée en personne, par courrier recommandé, par messagerie commerciale ou par télécopieur, au :

Directeur
a/s du coordonnateur/de la coordonnatrice en matière d'appels
Direction de l'inspection des foyers de soins de longue durée
Ministère de la Santé et des Soins de longue durée
1075, rue Bay, 11e étage
Toronto ON M5S 2B1
Télécopieur : 416 327-7603

**Ministry of Health and
Long-Term Care**

Order(s) of the Inspector

Pursuant to section 153 and/or
section 154 of the *Long-Term Care
Homes Act, 2007, S.O. 2007, c.8*

**Ministère de la Santé et
des Soins de longue durée**

Ordre(s) de l'inspecteur

Aux termes de l'article 153 et/ou
de l'article 154 de la *Loi de 2007 sur les foyers
de soins de longue durée, L.O. 2007, chap. 8*

Quand la signification est faite par courrier recommandé, elle est réputée être faite le cinquième jour qui suit le jour de l'envoi, quand la signification est faite par messagerie commerciale, elle est réputée être faite le deuxième jour ouvrable après le jour où la messagerie reçoit le document, et lorsque la signification est faite par télécopieur, elle est réputée être faite le premier jour ouvrable qui suit le jour de l'envoi de la télécopie. Si un avis écrit de la décision du directeur n'est pas signifié au/à la titulaire de permis dans les 28 jours de la réception de la demande de réexamen présentée par le/la titulaire de permis, cet ordre ou ces ordres sont réputés être confirmés par le directeur, et le/la titulaire de permis est réputé(e) avoir reçu une copie de la décision en question à l'expiration de ce délai.

Le/la titulaire de permis a le droit d'interjeter appel devant la Commission d'appel et de révision des services de santé (CARSS) de la décision du directeur relative à une demande de réexamen d'un ordre ou des ordres d'un inspecteur ou d'une inspectrice conformément à l'article 164 de la Loi de 2007 sur les foyers de soins de longue durée. La CARSS est un tribunal autonome qui n'a pas de lien avec le ministère. Elle est créée par la loi pour examiner les questions relatives aux services de santé. Si le/la titulaire décide de faire une demande d'audience, il ou elle doit, dans les 28 jours de la signification de l'avis de la décision du directeur, donner par écrit un avis d'appel à la fois à :

la Commission d'appel et de révision des services de santé et au directeur

À l'attention du/de la registrateur(e)
151, rue Bloor Ouest, 9e étage
Toronto ON M5S 2T5

Directeur
a/s du coordonnateur/de la coordonnatrice en matière
d'appels
Direction de l'inspection des foyers de soins de longue durée
Ministère de la Santé et des Soins de longue durée
1075, rue Bay, 11e étage
Toronto ON M5S 2B1
Télécopieur : 416 327-7603

À la réception de votre avis d'appel, la CARSS en accusera réception et fournira des instructions relatives au processus d'appel. Le/la titulaire de permis peut en savoir davantage sur la CARSS sur le site Web www.hsarb.on.ca.
