**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 21. Air temperature
Specifically failed to comply with the following:**

s. 21. (3) The temperature required to be measured under subsection (2) shall be documented at least once every morning, once every afternoon between 12 p.m. and 5 p.m. and once every evening or night. O. Reg. 79/10, s. 21 (3).

Findings/Faits saillants :

1. The licensee has failed to ensure that the temperature required to be measured in the areas under subsection (2) were documented at least once every morning, once every afternoon between 12 p.m. and 5 p.m. and once every evening or night.

As of May 15, 2021, amendments to the Regulation came into force, which required homes to measure and document the air temperature, every morning, afternoon and evening or night in at least two resident bedrooms, one common area on each floor, every designated cooling area in the home.

The temperature logbook indicated that temperatures were recorded once per day between 1-2 pm, and did not include temperature documentation in the morning and evening or night. The logbook indicated that temperature checks commenced three times per day on July 12, 2021, as required by the Regulation.
