The purpose of this inspection was to conduct a Complaint inspection.

This inspection was conducted on the following date(s): March 16, 2016

During the course of the inspection, the inspector(s) spoke with the Administrator, Director of Care and Environmental Services Supervisor related to air temperature management in the home between November 2015 and mid January 2016.

During the course of the inspection, the inspector toured the building including the boiler room, observed thermometers in place on the recirculation line of the hot water heating system and within corridors. Air temperatures verified to be above the minimum requirement of 22C (noted to be 26C) in corridors and confirmed that dining rooms were designated cooling areas during the summer months. Maintenance and repair records were reviewed with respect to the hot water heating system.
