(A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.)	Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.)
The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.	Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 17. Communication and response system
Specifically failed to comply with the following subsections:

s. 17. (1) Every licensee of a long-term care home shall ensure that the home is equipped with a resident-staff communication and response system that,
(a) can be easily seen, accessed and used by residents, staff and visitors at all times;
(b) is on at all times;
(c) allows calls to be cancelled only at the point of activation;
(d) is available at each bed, toilet, bath and shower location used by residents;
(e) is available in every area accessible by residents;
(f) clearly indicates when activated where the signal is coming from; and
(g) in the case of a system that uses sound to alert staff, is properly calibrated so that the level of sound is audible to staff. O. Reg. 79/10, s. 17 (1).

Findings/Faits saillants :

1. The resident-staff communication and response activation stations located in various resident washrooms and bedrooms do not activate when the cord attached to them is pulled. The cording in 6 rooms were pulled with overt force and could not activate the station. The cording was found to be stretchy with no tension and was unable to move the switch to which it was tied.

2. The wheelchair accessible washroom located on the 3rd floor and one station next to a bed in an identified room did not have a cord attached to the activation station. The cording for the activation station in a resident bathroom appeared to have been severed and was too short to complete the distance around the wall to where the resident could reach it.

Additional Required Actions:

CO # - 901 was served on the licensee. Refer to the "Order(s) of the Inspector".

WN #2: The Licensee has failed to comply with O.Reg 79/10, s. 16. Every licensee of a long-term care home shall ensure that every window in the home that opens to the outdoors and is accessible to residents has a screen and cannot be opened more than 15 centimetres. O. Reg. 79/10, s. 16.
