WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 101. Dealing with complaints

Specifically failed to comply with the following subsections:

s. 101. (1) Every licensee shall ensure that every written or verbal complaint made to the licensee or a staff member concerning the care of a resident or operation of the home is dealt with as follows:

1. The complaint shall be investigated and resolved where possible, and a response that complies with paragraph 3 provided within 10 business days of the receipt of the complaint, and where the complaint alleges harm or risk of harm to one or more residents, the investigation shall be commenced immediately.

2. For those complaints that cannot be investigated and resolved within 10 business days, an acknowledgement of receipt of the complaint shall be provided within 10 business days of receipt of the complaint including the date by which the complainant can reasonably expect a resolution, and a follow-up response that complies with paragraph 3 shall be provided as soon as possible in the circumstances.

3. A response shall be made to the person who made the complaint, indicating,

- i. what the licensee has done to resolve the complaint, or**
- ii. that the licensee believes the complaint to be unfounded and the reasons for the belief. O. Reg. 79/10, s. 101 (1).**

Findings/Faits saillants :

1. The Licensee did not ensure that a response was provided to every concern identified in a written letter of complaint. An identified resident submitted a written letter of complaint outlining the following concerns:

- concerns about residents using the washrooms in the home related to resident safety, loss of ability to be independent while using the washrooms because of the size of the washrooms and residents using wheelchairs and air quality issues in the small washrooms when the door is closed.
- disruptive residents in the dining room and the poor quality of meal service related to noise and resident behavior.
- shortage of PSWs
- high use of agency staff
- unacceptable practices occurring during the evening shifts in the home and requesting someone attend the home to see what residents are dealing with.

The response letter provided to the resident on September 26, 2011 did not include what the licensee has done to resolve the concerns identified with respect to safety, maintaining independence and air quality while residents were using designated washrooms, disruptive residents negatively affecting the quality of meal service, current shortages of PSW staff and high use agency staff as well as unspecified practices occurring on the evening shifts that are negatively affecting the residents.
