WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 19. Generators Specifically failed to comply with the following:

s. 19. (4) The licensee of a home to which subsection (2) or (3) applies shall ensure, not later than six months after the day this section comes into force, that the home has guaranteed access to a generator that will be operational within three hours of a power outage and that can maintain everything required under clauses (1) (a), (b) and (c). O. Reg. 79/10, s. 19 (4).

Findings/Faits saillants :

1. The licensee has failed to ensure the home has guaranteed access to a generator that will be operational within three hours of a power outage and that can maintain the required essential services in the home.

This was evidenced on December 21, 2013, when the home lost power at ~10pm and were unable to secure a generator and have it connected to the home to maintain the required essential services until ~9:30pm on December 22, 2013 (a total of 23hours).

In addition, the Administrator and Director of Environmental Services confirmed that the home did not have an agreement with a generator supply company or have a transfer switch in place to connect a generator to the home at the time of the power loss. It was noted that the home was able to secure a generator and have a transfer switch installed after ~23 hours following the initial power loss. [s. 19. (4)]

2. The licensee failed to ensured that the home is served by a generator that has the capacity to maintain, in the even of a power outage essential services including elevators.

This was evidenced by an interview with the Administrator and Director of Environmental Services who confirmed that on December 22, 2013, the home did not have the elevator connected to the procured generator. The home chose not to connect the elevator to ensure the generator would not be overloaded and maintain all the other required essential services. [s. 19. (4)]

Additional Required Actions:

CO # : 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

(A1)The following order(s) have been amended:CO# 001

(d) keep a written record of the testing of the emergency plans and planned evacuation and of the changes made to improve the plans. O. Reg. 79/10, s. 230 (7).

Findings/Faits saillants :

1. The licensee has failed to ensure that the emergency plans:
