1. The licensee has failed to ensure that the staff applied resident #006's physical device in accordance with instructions specified by the physician.

The home submitted a CIR related to resident #006's first fall on a day in October 2020, which resulted in an injury. Resident #006's clinical health records were reviewed and subsequent falls were identified. A review of resident #006's physician's order form from November 2020, and the three month medication review from January 2021, revealed the physician's order for a physical device to be applied while resident was up in their personal assistive device. A review of resident #006's progress notes revealed that the resident had a fall on a day in December 2020, and February 2021. It was further noted that the physical device was not applied in accordance with instructions specified by the physician. Further review of the progress notes indicated the resident did not sustain any injuries from these two falls. An interview with the DOC acknowledged that the physical device was not applied by the staff in accordance with instructions specified by the physician in the above mentioned fall incidents.
