WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 50. Skin and wound care

Specifically failed to comply with the following:

**s. 50. (2) Every licensee of a long-term care home shall ensure that,
(b) a resident exhibiting altered skin integrity, including skin breakdown, pressure ulcers, skin tears or wounds,**

(i) receives a skin assessment by a member of the registered nursing staff, using a clinically appropriate assessment instrument that is specifically designed for skin and wound assessment,

(ii) receives immediate treatment and interventions to reduce or relieve pain, promote healing, and prevent infection, as required,

(iii) is assessed by a registered dietitian who is a member of the staff of the home, and any changes made to the resident's plan of care relating to nutrition and hydration are implemented, and

(iv) is reassessed at least weekly by a member of the registered nursing staff, if clinically indicated; O. Reg. 79/10, s. 50 (2).

Findings/Faits saillants :

1. The licensee has failed to ensure that a resident exhibiting altered skin integrity, including skin breakdown, pressure ulcers, skin tears or wounds is reassessed at least weekly by a member of the registered nursing staff, if clinically indicated.

A review of progress notes for an identified resident on an identified date revealed the resident sustained a skin tear while the resident was receiving care.

There is no documented evidence that skin and wound assessments were completed weekly following the incident.

The Administrator and CoDirector of Care confirmed that skin and wound assessments were not completed weekly following the incident and the expectation that a resident exhibiting altered skin integrity, including skin breakdown, pressure ulcers, skin tears or wounds is reassessed at least weekly by a member of the registered nursing staff, if clinically indicated.
