**Specifically failed to comply with the following:**

**s. 229. (4) The licensee shall ensure that all staff participate in the implementation of the program. O. Reg. 79/10, s. 229 (4).**

**Findings/Faits saillants :**

**Inspection Report under the Long-Term Care Homes Act, 2007****Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

1. The licensee failed to ensure that all staff participated in the implementation of the infection prevention and control program.

The inspector conducted a tour of the home and observed the following:

- observed staff in a resident room, gown and gloves on, no eye protection, less than six feet away from a resident. The staff member removed their gloves, completed hand hygiene for less than 10 seconds, removed gown. Hand hygiene completed again for less than 10 seconds;
- observed housekeeping staff exit a resident room. They changed their gloves, however did not complete hand hygiene after removing the gloves and entering the next resident room;
- observed two staff exit a resident room, removed their personal protective equipment (PPE) in the correct order, completed hand hygiene for less than 15 seconds; and
- observed staff put on gloves, then gown, and entered a droplet/contact precaution room, no hand hygiene was completed.

The IPAC lead indicated that the expectation of the staff is to apply the following PPE when entering a droplet and contact precaution room in the following sequence: hand hygiene, gown, gloves, mask and eye protection if not already being worn. The expectation for hand hygiene is a minimum of 15 seconds, before and after resident interactions. They acknowledged the above expectations were not met.
