Inspection Report under
the Long-Term Care
Homes Act, 2007

Rapport d'inspection sous la
Loi de 2007 sur les foyers de
soins de longue durée

Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.)

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 51. Continence care and bowel management

Specifically failed to comply with the following:

**s. 51. (2) Every licensee of a long-term care home shall ensure that,
(a) each resident who is incontinent receives an assessment that includes identification of causal factors, patterns, type of incontinence and potential to restore function with specific interventions, and that where the condition or circumstances of the resident require, an assessment is conducted using a clinically appropriate assessment instrument that is specifically designed for assessment of incontinence; O. Reg. 79/10, s. 51 (2).**

Inspection Report under
the Long-Term Care
Homes Act, 2007

Rapport d'inspection sous la
Loi de 2007 sur les foyers de
soins de longue durée

1. The licensee of the long-term care home failed to ensure that, resident #001 who was incontinent received an assessment that included identification of causal factors, patterns, type of incontinence and potential to restore function with specific interventions, and that where the condition or circumstances of the resident required, an assessment was conducted using a clinically appropriate assessment instrument that was specifically designed for assessment of incontinence;

The resident file did not contain a continence assessment.

The staff interview identified that it is their responsibility to complete the continence assessments. Staff confirmed with Inspector 521 that resident #001 is incontinent and does not wear the appropriate product.

The plan of care and the Resident Assessment Instrument Minimum Data Set (RAI_MDS) Assessments identified that resident #001 was continent. The flow sheets of resident #001 indicated resident #001 was consistently incontinent on every shift of the last twelve days.

Resident #001 did not receive an assessment that included identification of causal factors, patterns, type of incontinence and potential to restore function with specific interventions. Using a clinically appropriate assessment instrument that was specifically designed for assessment of incontinence. [s. 51. (2) (a)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance with each resident who is incontinent receives an assessment that includes identification of causal factors, patterns, type of incontinence and potential to restore function with specific interventions, and that where the condition or circumstances of the resident require, an assessment is conducted using a clinically appropriate assessment instrument that is specifically designed for assessment of incontinence, to be implemented voluntarily.
