WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 305. Construction, renovation, etc., of homes

Specifically failed to comply with the following:

s. 305. (3) A licensee may not commence any of the following work without first receiving the approval of the Director:

- 1. Alterations, additions or renovations to the home. O. Reg. 79/10, s. 305 (3).**
- 2. Other work on the home or work on its equipment, if doing the work may significantly disturb or significantly inconvenience residents. O. Reg. 79/10, s. 305 (3).**

Findings/Faits saillants :

1. The licensee has failed to ensure that a renovation not commence without first receiving the approval of the Director.

The Administrator of the home contacted Inspector #197 on a specified date via email related to planned renovations. The inspector provided the Administrator with instructions and information for submitting their renovation plan for approval on the same date.

The Administrator contacted Inspector #197 approximately 21 days later and indicated that the home had begun the renovation without submitting their plan and receiving the required approval.

The renovation was observed by Inspector #197 to be partially complete and information was left with the home to submit an application for what was now a Bed in Abeyance (BIA).

When following up with the Administrator related to the BIA, they indicated that the home had decided against completing the renovation and that the room had been returned to its original state and will continue to be available for resident use should it be required. [s. 305. (3) 1.]
