WN #1: The Licensee has failed to comply with LTCHA, 2007, S.O. 2007, c. 8, s. 84.

Every licensee of a long-term care home shall develop and implement a quality improvement and utilization review system that monitors, analyzes, evaluates and improves the quality of the accommodation, care, services, programs and goods provided to residents of the long-term care home.

Findings:

1. The Home does not have a quality improvement and utilization review system for food services that monitors, analyzes, evaluates and improves the quality of service and goods provided to the residents. During the visit on September 7, 2010, seven randomly selected residents were asked if they had

participated in a foodservice quality survey or other data gathering methods to determine their satisfaction with the food and foodservices. None of the residents were aware of a survey or remember being asked for their opinion on the food or foodservices. Two registered staff were not able to recall a survey being provided to residents regarding the food or food services. There were no past survey results on file or any other evaluations of satisfaction, no written description of the system including goals, objectives, policies, procedures or protocols and no documentation regarding improvements made to quality and the names of persons who participated in evaluations. There was one documented food committee meeting attended by 4 residents in May 2010. The minutes of the meeting include some changes made to the menu based on resident comments but does not include monitoring, analyzing or evaluating the improvements suggested or improvements already completed.
