1. The licensee did not ensure that three resident's written point of care bath records were kept up to date.

A review of the August 2013 point of care bath records for five residents was completed.

The records for three residents were noted to have missing documentation. No hygiene issues were observed at the time of the inspection.

Staff verified that they were unsure if the missing documentation indicated that baths had been missed or if staff failed to document that the bath was completed.

Management indicates that the expectation of the home is that all baths, including refused or missed baths are recorded and explanations if required are provided in the progress notes. [s. 231. (b)]
