**Specifically failed to comply with the following:**

- s. 6. (11) When a resident is reassessed and the plan of care reviewed and revised,  
(a) subsections (4) and (5) apply, with necessary modifications, with respect to the  
reassessment and revision; and 2007, c. 8, s. 6 (11).

**Findings/Faits saillants :**

**Inspection Report under the Long-Term Care Homes Act, 2007****Rapport d'inspection en vertu de la Loi de 2007 sur les foyers de soins de longue durée**

1. The licensee failed to ensure that when resident #002 was being reassessed and their plan of care was being revised and the care set out in the plan was not effective, different approaches were considered related to fall prevention interventions.

Resident #002 required a specified level of assistance to perform their activities of daily living.

Review of resident #002's clinical records showed that they had fallen multiple times within a six week period.

The care plan was last revised on a specified date after their first fall, and included three fall prevention interventions. There were no further revisions or interventions made to the care plan until the date resident passed away despite resident #002 having six more falls.

On a specified date resident #002 had a fall that resulted in altered skin integrity, two weeks later suffered another fall, the following week they had a third fall that resulted in pain and a significant injury causing a change in their overall health status.

Two weeks after resident #002 suffered a severe injury, they returned from the hospital and passed away three days later. The care plan was revised to include additional fall prevention interventions the date that resident passed away.

RN #112 and RPN #113 shared that resident #002 would not routinely use the original fall prevention interventions the home put in place.

Acting Director of Care (ADOC) #110 shared that resident #002 had a specified fall intervention in place, however they acknowledged that there was no documentation of it being added to resident #002's plan of care and there were no revisions to the care plan.

The Licensee failed to ensure that when resident #002 was being reassessed for frequent falls and the plan of care was being revised, the care set out in the plan was not effective and different approaches were not considered in the plan of care. [s. 6. (11) (b)]

**4. Subject to subsection (3.1), an incident that causes an injury to a resident for which the resident is taken to a hospital and that results in a significant change in the resident’s health condition.**

***Findings/Faits saillants :***

1. The licensee failed to ensure that the director was informed no later than 1 business day after the occurrence of an incident that caused an injury to a resident for which the resident was taken to the hospital and resulted in a significant change in resident #002's health condition.

On a specified date, resident #002 was taken to the hospital as a result of a fall that caused a significant change in health condition.

The home submitted the Critical Incident (CI) report to the Director seven days after the incident. The Acting Director of Care (ADOC) stated that the CI was not submitted to the Director within the specified timelines and acknowledged that it should have been.

**Order / Ordre :**

The licensee must be compliant with s. 6 (11)(b) of O. Reg 79/10.

- B) Document in the resident plan of care, a record of the fall interventions that were put into place, and if those interventions were not effective what new interventions were considered.

**Grounds / Motifs :**

1. The licensee failed to ensure that when resident #002 was being reassessed and their plan of care was being revised and the care set out in the plan was not effective, different approaches were considered related to fall prevention interventions.

Resident #002 required a specified level of assistance to perform their activities of daily living.

Review of resident #002's clinical records showed that they had fallen multiple times within a six week period.

Two weeks after resident #002 suffered a severe injury, they returned from the hospital and passed away three days later. The care plan was revised to include additional fall prevention interventions the date that resident passed away.

RN #112 and RPN #113 shared that resident #002 would not routinely use the original fall prevention interventions the home put in place.

Acting Director of Care (ADOC) #110 shared that resident #002 had a specified fall intervention in place, however they acknowledged that there was no documentation of it being added to resident #002's plan of care and there were no revisions to the care plan.

The Licensee failed to ensure that when resident #002 was being reassessed for frequent falls and the plan of care was being revised, the care set out in the plan was not effective and different approaches were not considered in the plan of care.

The severity of this issue was determined to be a level 3 as there was actual harm to the resident. The scope of the issue was a level 1 as it related to one resident. The home had a level 2 history of previous non-compliance with a different subsection of that Act.
