WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 17. Communication and response system

Specifically failed to comply with the following:

- s. 17. (1) Every licensee of a long-term care home shall ensure that the home is equipped with a resident-staff communication and response system that,**
- (a) can be easily seen, accessed and used by residents, staff and visitors at all times; O. Reg. 79/10, s. 17 (1).**
 - (b) is on at all times; O. Reg. 79/10, s. 17 (1).**
 - (c) allows calls to be cancelled only at the point of activation; O. Reg. 79/10, s. 17 (1).**
 - (d) is available at each bed, toilet, bath and shower location used by residents; O. Reg. 79/10, s. 17 (1).**
 - (e) is available in every area accessible by residents; O. Reg. 79/10, s. 17 (1).**
 - (f) clearly indicates when activated where the signal is coming from; and O. Reg. 79/10, s. 17 (1).**
 - (g) in the case of a system that uses sound to alert staff, is properly calibrated so that the level of sound is audible to staff. O. Reg. 79/10, s. 17 (1).**

Findings/Faits saillants :

The licensee has failed to ensure that two residents had access to the resident-staff communication response system at all times.

At an identified time, staff noticed that a resident's call bell was not within reach. The resident was upset. A second resident was observed on two separate identified times, with their call bell not within reach.

The residents' care plans indicated the call bell was to be made available and within reach. Staff and management verified, that at all times the call bell should have been within reach.

The home's failure to ensure that the residents always had access to their call bell may have put the residents at risk in that they may not have had access to assistance when required.

Sources: Observations; resident clinical records; and interviews with staff and the Director of Care.

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

Genre d'ordre : Compliance Orders, s. 153. (1) (a)

Pursuant to / Aux termes de :

O.Reg 79/10, s. 17. (1) Every licensee of a long-term care home shall ensure that the home is equipped with a resident-staff communication and response system that,

- (a) can be easily seen, accessed and used by residents, staff and visitors at all times;
- (b) is on at all times;
- (c) allows calls to be cancelled only at the point of activation;
- (d) is available at each bed, toilet, bath and shower location used by residents;

- (g) in the case of a system that uses sound to alert staff, is properly calibrated so that the level of sound is audible to staff. O. Reg. 79/10, s. 17 (1).

Order / Ordre :

The licensee must be compliant with O. Reg 79/10, s. 17 (1) (a) of the LTCHA, 2007.

The licensee shall ensure that the resident-staff communication and response system is easily seen, accessed and used by residents, staff and visitors at all times, specifically the two identified residents, by completing the following:

- conduct daily audits, on different shifts, for two consecutive weeks, followed by random audits, on different shifts, three times a week, for two consecutive weeks, to assess compliance by staff in ensuring the resident/staff communication system is accessible to the two identified residents and, that the identified residents are able to use the system in place. Documentation of these audits must be maintained and made available to an Inspector upon request.
- implement and evaluate any corrective actions required to address any identified deficiencies during the audits to ensure that corrections are incorporated into the quality improvement processes of the home and that these improvements are documented.

Grounds / Motifs :

1. The licensee has failed to ensure that two residents had access to the resident-staff communication response system at all times.

At an identified time, staff noticed that a resident's call bell was not within reach. The resident was upset. A second resident was observed on two separate identified times, with their call bell not within reach.

The residents' care plans indicated the call bell was to be made available and within reach. Staff and management verified, that at all times the call bell should have been within reach.

The home's failure to ensure that the residents always had access to their call bell may have put the residents at risk in that they may not have had access to assistance when required.

Sources: Observations; resident clinical records; and interviews with staff and the Director of Care.

An order was made by taking the following factors into account:

Severity: There was minimal harm and potential risk to the residents when the call bell was not accessible as required.

Scope: The scope of this non-compliance was a pattern because the call bell was not accessible for two of the three residents reviewed during this inspection.

Compliance History: In the last 36 months, the licensee was found to be non-compliant with O. Reg 79/10, s. 17 (1) and two Compliance Orders (CO) were issued to the home.
