**Findings/Faits saillants :**

1. The licensee has failed to ensure that any plan, policy, protocol, procedure, strategy or system instituted or otherwise put in place is complied with.

According to the progress notes on a specified date, a resident was found to have a small area of altered skin integrity.

In the progress notes on a specified date, it was noted that an outside assessment revealed that the area of altered skin integrity had worsened.

It was confirmed by the Registered Dietitian (RD) that there was no referral sent when the resident was found to have this area of altered skin integrity.

According to the RD it was approximately six weeks after the discovery of the resident's altered skin integrity that the RD received a referral.

Upon interview with a Registered staff, on a specified date, it was confirmed that the RD referral for the resident's altered skin integrity was delayed as it was not done when the area was first discovered.

The home's policy outlines that the Registered Dietitian will be notified of any area of altered skin integrity past a certain outlined stage of severity. [s. 8. (1) (a), s. 8. (1) (b)]
