Aux termes de l'article 153 et/ou de l'article 154 de la *Loi de 2007 sur les foyers de soins de longue durée*, L.O. 2007, chap. 8

The licensee must be compliant with s. 50 (2) of O.Reg. 79/10.

Specifically the licensee must:

- a) Ensure that the identified resident receives a skin assessment by a member of the registered nursing staff upon return from hospital.
- b) Ensure that the skin and wound audit tool implemented includes documentation that all residents at risk of altered skin integrity returning from hospital receive a skin assessment upon their return.

Grounds / Motifs :

1. Compliance order #001 related to O.Reg. 79/10, s.50 (2) from inspection 2020_739694_0020 issued on September 8, 2020, with a compliance due date of September 22, 2020, is being re-issued.

A Registered Practical Nurse did not complete a skin assessment when a resident was readmitted from hospital. As a result, there may have been changes to the resident's skin integrity that were not captured.

A review of the refresher training that was to be provided to all registered staff related to the timelines for skin assessments was not completed by the RPN and two other registered staff by September 22, 2020. The home's auditing process did not capture that the identified resident's skin assessment was not completed on readmission from the hospital.

An order was made by taking the following factors into account:

Severity: There was minimal risk of harm because the resident was readmitted from hospital with areas of altered skin integrity and these areas were not assessed until four days after return from hospital.

Scope: This was an isolated case as one out of three residents reviewed did not have a skin assessment completed on return from hospital.

Compliance History: The licensee continues to be in non-compliance with s. 50 (2) of O. Reg. 79/10, resulting in a compliance order (CO) being reissued. Non-
