Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (a requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA).	Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.
The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.	Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

**WN #1: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 6.
Plan of care**

Specifically failed to comply with the following:

s. 6. (1) Every licensee of a long-term care home shall ensure that there is a written plan of care for each resident that sets out,
(a) the planned care for the resident; 2007, c. 8, s. 6 (1).
(b) the goals the care is intended to achieve; and 2007, c. 8, s. 6 (1).
(c) clear directions to staff and others who provide direct care to the resident. 2007, c. 8, s. 6 (1).

Findings/Faits saillants :

1. The licensee failed to ensure that the written plan of care sets out clear directions to staff and others who provide direct care to the resident.

A review of clinical records, critical incident report and interviews with nursing staff revealed that on an identified date resident #001 was observed by a PSW to be in distress during a meal. The registered nursing staff suspected the resident was choking and attempts to respond to the distress by different interventions and actions were unsuccessful. The staff called 911. The resident was taken to hospital and staff were notified later that day that the resident was deceased.

Review of the home's menu revealed that the lunch menu for the date of the incident included beef stroganoff. The resident's written plan of care effective at the time of the incident directed staff to provide the resident with "diet is regular, texture as regular" and "hard to chew whole meats give minced texture". Interviews with three dietary aides revealed that each interpreted these guidelines differently. The dietary aides indicated that using the directions in the written plan of care to serve the beef stroganoff one would serve regular texture beef, one would serve minced beef and the other would base the decision on the size of the beef chunks and their tenderness. An interview with the home's RD revealed that that hard to chew whole meats would include any piece of meat that had not been ground or modified. A review of the beef stroganoff recipe revealed that it contained one inch cubes of beef. The RD confirmed that one inch cubes of beef would be considered hard to chew whole meat.

Interviews with the home's RD, DOC and Director confirmed that the written plan of care did not provide clear directions to the staff serving meals to the resident. [s. 6. (1) (c)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

WN #2: The Licensee has failed to comply with O.Reg 79/10, s. 107. Reports re critical incidents

Specifically failed to comply with the following:

s. 107. (3) The licensee shall ensure that the Director is informed of the following incidents in the home no later than one business day after the occurrence of the incident, followed by the report required under subsection (4):

4. An injury in respect of which a person is taken to hospital. O. Reg. 79/10, s. 107 (3).

Findings/Faits saillants :

1. The licensee failed to ensure that the Director is informed an incident in the home no later than one business day after the occurrence of the incident, that causes an injury to a resident that results in a significant change in the resident's health condition, and for which the resident is taken to a hospital.

On an identified date, resident #001 was observed by a PSW to be in distress during a meal. The registered nursing staff suspected the resident was choking and attempts to respond to the distress by different interventions and actions were unsuccessful. The staff called 911 and the resident was transferred to hospital. Staff in the home were notified later that day that the resident was deceased. The Director was notified of this incident by a critical incident system (CIS) report submitted by the home's DOC three days after the incident occurred. Interview with the home's DOC and the home's Director confirmed that the home was notified on the same day of the resident's passing and that the CIS report was not submitted until three days after the incident.
