Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (A requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA.) The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.	Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD. Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 53. Responsive behaviours

Specifically failed to comply with the following subsections:

s. 53. (1) Every licensee of a long-term care home shall ensure that the following are developed to meet the needs of residents with responsive behaviours:
1. Written approaches to care, including screening protocols, assessment, reassessment and identification of behavioural triggers that may result in responsive behaviours, whether cognitive, physical, emotional, social, environmental or other.
2. Written strategies, including techniques and interventions, to prevent, minimize or respond to the responsive behaviours.
3. Resident monitoring and internal reporting protocols.
4. Protocols for the referral of residents to specialized resources where required. O. Reg. 79/10, s. 53 (1).

Findings/Faits saillants :

1. The licensee failed to ensure that written strategies include techniques and interventions to prevent, minimize or respond to the responsive behaviours. [r. 53. (1) 2]

Resident 001 is identified to have behaviours that trigger aggression in a co-resident of the home and have previously contributed to resident to resident altercations. Staff interviewed are able to identify interventions used to minimize the risk of resident to resident altercation involving resident 001. Record review and interview confirm that the identified techniques and interventions to prevent, minimize or respond to the responsive behaviours are not included in the plan of care for resident 001.

2. Resident 002 is identified in documentation review and confirmed in interview to exhibit responsive behaviours directed at residents of the home. The plan of care does not include techniques and interventions to prevent, minimize or respond to these behaviours.
It is documented that in April, June and September 2012 resident 002 demonstrated responsive behaviours directed at a resident of the home. In addition, there are documented incidents when resident 002 has directed responsive behaviours toward staff. Interventions to prevent, minimize or respond to identified responsive behaviours are not documented for resident 002.

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance ensuring that written strategies include techniques and interventions to prevent, minimize or respond to the responsive behaviours, to be implemented voluntarily.
