Specifically failed to comply with the following:

- s. 53. (4) The licensee shall ensure that, for each resident demonstrating responsive behaviours,**
(a) the behavioural triggers for the resident are identified, where possible; O. Reg. 79/10, s. 53 (4).
(b) strategies are developed and implemented to respond to these behaviours, where possible; and O. Reg. 79/10, s. 53 (4).
(c) actions are taken to respond to the needs of the resident, including assessments, reassessments and interventions and that the resident's responses to interventions are documented. O. Reg. 79/10, s. 53 (4).

Findings/Faits saillants :

1. The licensee had failed to ensure that strategies had been developed and implemented to respond to the resident demonstrating responsive behaviours, where possible.

A review of Point Click Care (PCC) documentation showed that resident # 006 had behaviours.

An Interview with the BSO Personal Support Worker on December 16, 2015, showed that they were using a purple dot system outside of resident room, the physician book, and on the medication administration record that would indicate to staff that the resident can be aggressive.

A review of the behavioural support binder on the second floor showed a document that explained the purple dot system and what it was for and when it would be used.

During an interview with the RPN on December 14, 2015, she confirmed they do not use the purple dot system.

The Director of Care confirmed that resident # 006 should have had the purple dot system in place to indicate to staff the risk of aggression and that the strategies developed had not been implemented. [s. 53. (4) (b)]
