The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (Une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.)

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 24. 24-hour admission care plan

Specifically failed to comply with the following:

s. 24. (2) The care plan must identify the resident and must include, at a minimum, the following with respect to the resident:

1. Any risks the resident may pose to himself or herself, including any risk of falling, and interventions to mitigate those risks. O. Reg. 79/10, s. 24 (2).

s. 24. (4) The licensee shall ensure that the care set out in the care plan is based on an assessment of the resident and the needs and preferences of that resident and on the assessment, reassessments and information provided by the placement co-ordinator under section 44 of the Act. O. Reg. 79/10, s. 24 (4).

The licensee did not ensure the 24-hour admission care plan for resident #1 identified a risk to themselves, and interventions to mitigate the risk.

The resident was admitted in October, 2012. The Power Of Attorney (POA) and the Community Care Access(CCAC) Long Term Care (LTC) reported the risk on the day the resident was admitted. The POA also identified possible triggers for the risk.

The resident's "Personal Care Profile - Admission" did not include the resident risk or identify any strategies to minimize the risk. The resident had four incidents prior to an assessment being completed seven days after the admission. The resident had a total of seven incidents, of which three caused injury, prior to the initial plan of care to address risk was implemented six weeks after admission.[s. 24. (2) 1.]

2. The licensee did not ensure that the care set out in the care plan was based on an assessment of the resident and the needs and preferences of that resident and on the assessment, reassessments and information provided by the placement co-ordinator under section 44 of the Act: Resident #1 was admitted in October, 2012. The resident was identified at risk to themselves by the POA and on the LTC application at the time of admission. There was no assessment for the risk completed at the time of admission. The RAI-MDS Coordinator confirmed that the home did not have an admission assessment instrument for the identified risk and an assessment had not been completed for this resident. The resident had incidents prior to an assessment or reassessment being completed. [s. 24. (4)]

Additional Required Actions:

CO # - 001 will be served on the licensee. Refer to the "Order(s) of the Inspector".

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that the care set out in the 24-hour admission care plan is based on an assessment of the resident and the needs and preferences of that resident and on the assessment, reassessments and information provided by the placement co-ordinator under section 44 of the Act, to be implemented voluntarily.

WN #2: The Licensee has failed to comply with LTCHA, 2007 S.O. 2007, c.8, s. 5. Every licensee of a long-term care home shall ensure that the home is a safe and secure environment for its residents. 2007, c. 8, s. 5.

Findings/Faits saillants :

1. The licensee did not ensure that the home was a safe and secure environment for resident #1. The resident was walking in the hallway of their home area and tripped over an electric cord of equipment being used by a staff person. The staff person confirmed they had their back to the cord when the resident fell over the cord. The resident sustained an injury. The home confirmed the staff should of used the electrical equipment in common areas with the electric cord in their sight at all times. [s. 5.]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that the home utilizes safe housekeeping practices that will ensure a safe and secure environment for its residents, to be implemented voluntarily.

WN #3: The Licensee has failed to comply with O.Reg 79/10, s. 25. Initial plan of care

Specifically failed to comply with the following:

s. 25. (1) Every licensee of a long-term care home shall ensure that,
(a) the assessments necessary to develop an initial plan of care under subsection 6 (6) of the Act are completed within 14 days of the resident's admission; and O. Reg. 79/10, s. 25 (1).
(b) the initial plan of care is developed within 21 days of the admission. O. Reg. 79/10, s. 25 (1).

The licensee did not ensure that the assessments necessary to develop an initial plan of care under subsection 6(6) of the Act were completed within 14 days of the resident's admission and the initial plan of care was developed within 21 days of the admission for resident #1. The resident was admitted in October, 2012. The residents assessments including Resident Assessment Protocols (RAPs) were not completed until six weeks after admission. The initial plan of care was not implemented until four weeks after admission, and the risk of falls plan of care was not implemented until four weeks after admission. The RAI-MDS Coordinator confirmed the assessments and plan of care were not completed in the time required. [s. 25. (1) (b)]

WN #4: The Licensee has failed to comply with O.Reg 79/10, s. 110.

Requirements relating to restraining by a physical device

Specifically failed to comply with the following:

s. 110. (2) Every licensee shall ensure that the following requirements are met where a resident is being restrained by a physical device under section 31 of the Act:

1. That staff only apply the physical device that has been ordered or approved by a physician or registered nurse in the extended class. O. Reg. 79/10, s. 110 (2).

Findings/Faits saillants :

1. The licensee did not ensure that the following requirements were met where a resident was being restrained by a physical device under section 31 of the Act: 1. That staff only apply the physical device that has been ordered or approved by a physician or registered nurse in the extended class. Documentation in the progress notes identified Resident #1 had the type of physical restraint changed in November, 2012. The physician order, dated after the change in type occurred, did not reflect the type of physical restraint being used. The Neighbourhood Coordinator confirmed the physician order was not current.
