1. The Licensee failed to ensure that steps are taken to ensure the security of the drug supply including all areas where drugs are stored shall be kept locked at all times, when not in use, as evidenced by:

Inspector # 137 observed 16 prescription creams, for various residents, in a plastic storage container, left on Huron's nursing desk, with no staff member in attendance. Also, a treatment cart was observed unattended and unlocked, in the hallway, between Superior Home Area dining room and Lounge area. There were prescription creams and scissors, on top of the cart, as well as prescription creams and scissors in the bottom drawer, which were accessible to residents.

Two Registered Practical Nurses and the Director of Care confirmed, that the expectation is these prescription creams are to be locked in a medication/treatment room/cart when not in use, that treatment carts are to be locked, if unattended, with no items on top and should be stored in the locked medication/treatment room and these items should not be been accessible to residents. [s. 130. 1.]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance to ensure that steps are taken to ensure the security of the drug supply, including all areas where drugs are stored shall be kept locked at all times, when not in use, to be implemented voluntarily.
