1. [O.Reg. 79/10, s. 68(2)(c)]

The home's policies and procedures did not include strategies to mitigate the immediate risks associated with choking/aspiration while waiting for the completion of a swallowing assessment and/or an assessment by the Registered Dietitian. During interview, not all registered nursing staff had the same understanding of actions to take to mitigate risks while waiting for a swallowing assessment when there were concerns related to choking/aspiration. The home's policies did not provide clear direction on how to manage risks while waiting for further assessment. [s. 68. (2) (c)]

Additional Required Actions:

VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2) the licensee is hereby requested to prepare a written plan of correction for achieving compliance with ensuring the implementation of interventions to mitigate and manage risks relating to nutrition care and dietary services and hydration, to be implemented voluntarily.
