1. The licensee has failed to ensure that the care set out in the plan of care for resident #080 is provided to the resident as specified in the plan.

Early in 2015, a Critical Incident was submitted to the Director reporting that a safety device, that was not included in the plan of care, had been applied to a resident.

On April 8 and 9, 2015, the inspector observed the resident to be utilizing another type of safety device that was not included in the plan of care.

The plan of care in effect early in 2015, and the current plan of care for resident #080 were reviewed by Inspector #597. The use of these two safety devices were not listed as interventions.

The physician's orders for resident #080 were reviewed and orders for the use of these safety devices were not found.

S#202, #203 and #204 were interviewed by Inspector #597. All three staff reported that the care plans for the residents are available at the nursing station.

The DOC was interviewed and reported that it is the expectation of the home that staff utilize the information in the care plans printed in the binders at the nursing station to provide safe consistent care to residents.

In conclusion, the use of the safety device early in 2015 and the use of another type of safety device on April 8 and 9, 2015, was not done in accordance with the care specified in the plan of care of resident #080. [s. 6. (7)]
