Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (a requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA).

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 8. Policies, etc., to be followed, and records

Specifically failed to comply with the following:

s. 8. (1) Where the Act or this Regulation requires the licensee of a long-term care home to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system,
(a) is in compliance with and is implemented in accordance with applicable requirements under the Act; and O. Reg. 79/10, s. 8 (1).
(b) is complied with. O. Reg. 79/10, s. 8 (1).

Findings/Faits saillants :

1. The licensee has failed to ensure that where the Regulation required the licensee of a long-term care home to have, institute or otherwise put in place any policy, the policy was complied with.

In accordance with O. Reg. 79/10 s.114(2), the licensee was required to have written policies developed for the medication management system to ensure the accurate acquisition, dispensing, receipt, storage, administration, and destruction and disposal of all drugs used in the home.

Specifically, staff did not comply with the licensee's policy Narcotic Guidelines #04-04-01, implemented July 2010, which stated that the narcotic and controlled drug administration record specific for each resident in the home will be completed and the totals must reflect the actual amount of controlled drugs in the locked narcotic cabinet.

The Ministry of Long Term Care (MOLTC) received a critical incident system (CIS) report for an incident that occurred on a specified date related to a missing controlled substance discovered during the shift exchange narcotic count.

During observations conducted on a specified date and time with RPN #125, three individual narcotic and controlled substance records did not correspond with the actual number of narcotics and controlled substances locked in the narcotic cabinet.

In an interview, RPN #125 indicated they administered the narcotics and controlled substances to three residents as per the electronic medication administration record (eMAR). The RPN indicated it is the home's process for narcotics and controlled substances to be documented in the narcotic record right after administration. RPN #125 indicated that they got too busy in the unit and forgot to sign the narcotic records after administration.

In an interview, DOC #117 indicated that the registered staff must document right away on the narcotic count records after a narcotic or controlled substance is administered to ensure the counts are correct. The DOC acknowledged that RPN #125 did not follow the home's narcotic guidelines policy. [s. 8. (1) (b)]
