Non-compliance with requirements under the Long-Term Care Homes Act, 2007 (LTCHA) was found. (a requirement under the LTCHA includes the requirements contained in the items listed in the definition of "requirement under this Act" in subsection 2(1) of the LTCHA).

Le non-respect des exigences de la Loi de 2007 sur les foyers de soins de longue durée (LFSLD) a été constaté. (une exigence de la loi comprend les exigences qui font partie des éléments énumérés dans la définition de « exigence prévue par la présente loi », au paragraphe 2(1) de la LFSLD.

The following constitutes written notification of non-compliance under paragraph 1 of section 152 of the LTCHA.

Ce qui suit constitue un avis écrit de non-respect aux termes du paragraphe 1 de l'article 152 de la LFSLD.

**WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 8. Policies, etc., to be followed, and records**

**Specifically failed to comply with the following:**

**s. 8. (1) Where the Act or this Regulation requires the licensee of a long-term care home to have, institute or otherwise put in place any plan, policy, protocol, procedure, strategy or system, the licensee is required to ensure that the plan, policy, protocol, procedure, strategy or system,**  
**(a) is in compliance with and is implemented in accordance with applicable requirements under the Act; and O. Reg. 79/10, s. 8 (1).**  
**(b) is complied with. O. Reg. 79/10, s. 8 (1).**

**Ministry of Health and  
Long-Term Care**

**Inspection Report under  
the Long-Term Care  
Homes Act, 2007**

**Ministère de la Santé et des  
Soins de longue durée**

**Rapport d'inspection sous la  
Loi de 2007 sur les foyers de  
soins de longue durée**

**Findings/Faits saillants :**

1. The licensee did not ensure that the home's Pain Assessment and Symptom Management Policy was complied with.

A) The home's Pain Assessment and Symptom Management Policy, LTC-E-80, last revised August 2012, included the following directive:

- "If pain has been identified, a pain monitoring tool will be initiated for 72 hours."
- "Initiate pain monitoring tool when - (f) - PRN medication is used for 3 consecutive days."

B) Review of the clinical record for one resident revealed the resident had verbalized and non-verbalized indicators of pain on numerous occasions over a specific period of time.

C) Investigation into the cause of the pain had failed to provide a diagnosis.

D) The physician prescribed medication for the resident for pain management purposes. The resident continued to have verbalized and non-verbalized indicators of pain that they confirmed with the Inspector on the date of inspection.

F) The resident's medication administration record confirmed the resident had been administered the medication as prescribed. The clinical record did not include pain monitoring records for a specified period of time.

G) One RPN, #101 confirmed pain monitoring had not been initiated as per the home's policy and stated pain monitoring should have been started when the resident complained of new pain and when there had been a change in the resident's pain medication.

H) The Executive Director, #100, confirmed that nursing personnel did not follow the home's Pain Assessment and Symptom Management Policy and that pain monitoring should have been initiated according to the policy. [s. 8. (1) (a), s. 8. (1) (b)]

**Additional Required Actions:**

**VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2)  
the licensee is hereby requested to prepare a written plan of correction for  
achieving compliance to ensure the home's Pain Assessment and Symptom  
Management Policy is complied with, to be implemented voluntarily.**
