### **Findings/Faits saillants :**

1. The licensee has failed to ensure the resident was reassessed and the plan of care reviewed and revised at least every six months and at any other time when the resident's care needs changed or care set out in the plan was no longer necessary.

A review of the plan of care, for an identified resident, revealed the resident was independent for mobility, positioning in bed and transfers.

Observation of the resident, a clinical record review and staff interviews revealed the resident had a significant change in health status and was no longer independent.

The Director of Care, # 101, confirmed the resident was no longer independent and the care plan was not reviewed and revised when the resident's care needs changed, as well as the expectation that the plan of care should have been revised to reflect the resident's current health care needs. [s. 6. (10) (b)]

### **Additional Required Actions:**

**VPC - pursuant to the Long-Term Care Homes Act, 2007, S.O. 2007, c.8, s.152(2)  
the licensee is hereby requested to prepare a written plan of correction for  
achieving compliance to ensure the resident is reassessed and the plan of care  
reviewed and revised at least every six months and at any other time when the  
resident's care needs change or care set out in the plan is no longer necessary, to  
be implemented voluntarily.**
