1. The licensee has failed to ensure that any policy put in place was complied with.

Observation of an identified resident revealed the resident exhibited impaired skin integrity. Record review of the progress notes indicated no documented evidence of the identified resident's impaired skin integrity.

Review of the "Skin and Wound-Bruises, Rashes, Incontinence-associated Dermatitis, and Abrasions," policy stated; "the nurse is to document in the progress note the location, size, color, characteristics, and screen for pain."

Staff interviews with two identified registered staff acknowledged that no documentation regarding the impaired skin integrity was noted in the progress notes.

During staff interviews with the Executive Director and the Director of Care both confirmed that it was the expectation of staff to comply with the home's policy. [s. 8. (1) (a), s. 8. (1) (b)]
