WN #1: The Licensee has failed to comply with O.Reg 79/10, s. 90. Maintenance services

Specifically failed to comply with the following:

**s. 90. (2) The licensee shall ensure that procedures are developed and implemented to ensure that,
(c) heating, ventilation and air conditioning systems are cleaned and in good state of repair and inspected at least every six months by a certified individual, and that documentation is kept of the inspection; O. Reg. 79/10, s. 90 (2).**

Findings/Faits saillants :

1. There is no documentation to support that inspection of the home's electric baseboard heaters has been completed by a certified individual at least every six months. The Environmental Services Manager confirmed that the electric baseboard heaters in resident rooms, on the Mill side of the home, are not inspected by a certified individual at least every six months.

The electric baseboard heaters in resident rooms on the Mill side of the home are the only source of heat in these rooms. As a result, these electric baseboard heaters are classified as part of the home's heating system. [s. 90. (2) (c)]
